

# 10 Reasons to upgrade

The advantages and benefits.

**1 Airless design**  
Reduced operator error and removal of the cost of compressed air.

**2 Integrated print checking**  
Print errors detected and can be corrected before leaving factory.

**3 Enhanced print quality**  
Clear prints help to build and maintain brand reputation.

**4 Simple cassette design**  
Reduced consumable changeover times for maximum efficiency.

**5 Small footprint**  
Less disruption to production during install.

**6 Solid state ribbon drive**  
Reduced spares and maintenance costs.

**7 Operator activity audit trail**  
Easy to view, track and manage.

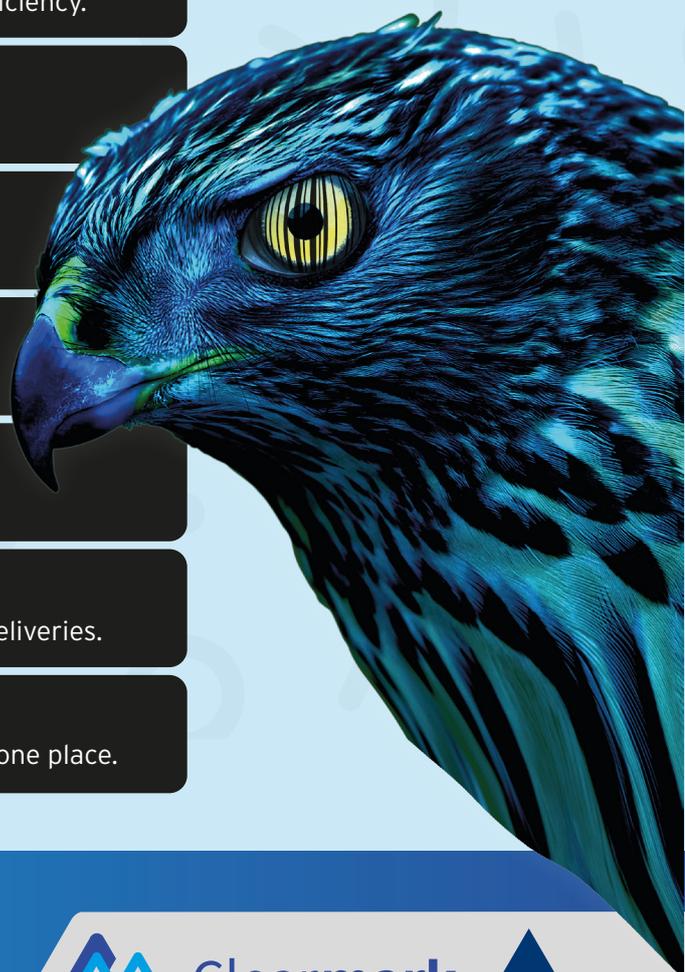

**8 High-speed printing**  
Increased throughput of products.

**9 1200m ribbon capacity**  
Fewer changeovers and more environmentally friendly deliveries.

**10 Clarisuite™**  
Easily design labels and manage all coding equipment in one place.
